

Are you a brave and unstoppable woman who wants to help other women embrace their financial freedom? Do you want to be a leader in a community that helps women engage in a fulfilling way? Do you have a passion to educate and support women?

Purse Strings is a learning resource and support community. We do not promote or sell any product or service. Rather, Purse Strings' purpose is to help women master their relationship with money through education, community and resourcing. We are looking for facilitators, community leaders and women who are seeking a small business opportunity.

Purse Strings is looking for Small Group Facilitators (SGF) who share our passion for helping women achieve financial literacy and strength — and want to be part of an innovative, supportive community cultivating a financially conscious lifestyle.

The Small Group Facilitator is an independent contract position and a way to earn income on your own schedule and on your own time. You will be taught how to organize and conduct topic-specific sessions related to fundamental insurance and financial services know-how.
